Informing Science

The academically peer
refereed journal Informing
Science endeavors to provide
an understanding of the
complexities in informing
clientele. Fields from
information systems, library
science, journalism in all its
forms, to communications and
education all contribute to
this science. These fields,
which developed
independently and have been
researched in separate
disciplines, are evolving to
form a new transdiscipline,
Informing Science.

Informing Science:

*the International
Journal of an Emerging
Transdiscipline*

*A publication of the
Informing Science
Institute*

ISSN 1547-9684
